FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF SECRETARY

In the Matter of)

Amendment of Section 73.606(b) of the)
Commission's Rules, TV Table of Allotments,)
to allot Channel 62 to Cairo, Georgia)

MM Docket No. _____
RM No. _____

To: Chief, Allocations Branch

DOCKET FILE COPY ORIGINAL

PETITION FOR RULEMAKING

Cairo 62, L.L.C. ("Cairo 62"), by counsel, and pursuant to Section 1.401 of the Commission's rules, hereby requests the Commission to institute a rulemaking proceeding for the purpose of amending the TV Table of Allotments to allot Channel 62 to Cairo, Georgia, as that community's first local television service. Cairo 62 proposes to amend Section 73.606(b) of the Commission's rules as follows:

Channel No.

<u>City</u>	<u>Present</u>	<u>Proposed</u>
Cairo, Georgia	- - -	62

No change in the existing allotments is requested. In support of this request, the following is stated:

The city of Cairo, Georgia, is an incorporated community with a 1990 U.S. Census population of 9,035. Cairo is the county seat of Grady County. It has its own post office and three zip codes, at least one bank and hospital, and is served by the CSX Transportation Railroad.

No. of Copies rec'd 14
List ABCDE

MMB

As demonstrated in the attached engineering exhibit, the proposed site meets the minimum distance separation requirements with respect to all known licenses, construction permits, open allotments, pending applications, and pending rulemakings.

As stated above, the allotment of Channel 62 will provide Cairo with a first local television service, which will promote the objectives of Section 307(b) of the Communications Act of providing a fair, efficient and equitable distribution of television broadcast stations among the various States and communities. 47 U.S.C. §307(b). See National Broadcasting Co. v. U.S., 319 U.S. 190, 217 (1943) (describing goal of Communications Act to "secure the maximum benefits of radio to all the people of the United States); FCC v. Allentown Broadcasting Co., 349 U.S. 358, 359-62 (1955) (describing goal of Section 307(b) to "secure local means of expression"). In addition, the proposed allotment will promote the second television allotment priority established in the Sixth Report and Order in Docket Nos. 8736 and 8975. 41 FCC 148, 167 (1952), of providing each community with at least one television broadcast station. The proposed allotment also will permit an additional network to serve the Tallahassee-Thomasville television market. Therefore, the allotment will serve the public interest.

Contemporaneously herewith, the petitioner is filing an application for a construction permit for the new facility contingent upon the grant of the proposed allotment. In the event its application is granted, the petitioner will promptly construct the new facility.

WHEREFORE, in light of the foregoing, Cairo 62, L.L.C. respectfully requests the Commission to GRANT this petition for rulemaking, AMEND the TV Table of Allotments, and ALLOT Channel 62 to Cairo, Georgia, as that community's first local television service.

Respectfully submitted,

CAIRO 62, L.L.C.

JULY 20, 1996

ENGINEERING STATEMENT IN SUPPORT OF A
PETITION FOR RULE MAKING
TO AMEND
THE TV TABLE OF ASSIGNMENTS

WES, INC.

DECLARATION

I, Pete E.M. Warren III, declare and state that I am a Certified Engineer, Class I, Senior, with Master Endorsement radiating and non-radiating, by The national association of radio and Telecommunications Engineers, Inc., and my qualifications are a matter of record with the Federal Communications Commission, and that I am an engineer in the firm of WES, Inc., and that the firm has been retained to prepare an engineering statement in support of a Petition to Amend the TV Table of Assignments

All facts contained herein are true to my knowledge except where stated to be on information or belief, and as to those facts, I believe them to be true. All Exhibits were prepared by me or under my supervision. I declare under penalty of perjury that the foregoing is true and correct.

Pete E. M. Warren III

Executed on the 20th day of July, 1996

Narrative Statement

I. GENERAL

The purpose of this engineering statement is to support a request that the TV Table of Assignments be amended to add Ch. 62 at Cairo, GA. The proposed channel has no short-spacing as can be seen by the channel spacing study. A contingent application will be submitted.

It should be noted that the area in question is not within 320 kilometers (200 miles) of a US Border and, therefore, foreign concurrence is not required.

II. ENGINEERING DISCUSSION

A. Proposed Site:

We propose a site located at the following coordinates:

Latitude: 30 52 0

Longitude: 84 13 0

The allocation may be within a wide area.

B. Channel Allocation Study:

Exhibit 1 is a Channel Allocation Study of Ch. 62. The study indicates the required separation in kilometers to all known Licenses, Construction Permits, Open Allocations, pending Allocations, and pending Rule Makings.

C. Public Interest Showing:

1. This would be the first allotment to Cairo, GA. The petitioner believes that the requested channel addition is in the Public Interest and, therefore, should be granted by the Commission.
2. An additional station in the area would allow for carriage of a fifth network.

III. SUMMARY

Petitioner requests that the TV Table of Assignments be amended as follows:
